

DON'T GO

RILEY

Say you will, say you'll stay, say you won't leave me in the morning (Morning)

I know you're right when we fight, couldn't leave you if I wanted, yeah

You say that trust don't come easy, but, baby, believe me, don't go (Oh)

Don't forget when we met, I held you tight 'cause you were hurtin' (Hurtin')

So upset when I left, stayed on the phone until the morning, ay

I know that love don't come easy, so, baby, don't leave me, don't go

Didn't wanna be the one, I didn't really need someone until I found you

Now I couldn't call your phone, now I couldn't call this home if it's without you, yeah

I know that love don't come easy, so, baby, don't leave me, don't go

Didn't wanna be the one, I didn't really need someone until I found you

Now I couldn't call your phone, now I couldn't call this home if it's without you, yeah

I know that love don't come easy, so, baby, don't leave me, don't go

If you think it's bad right now, just go and walk away

I know that I've calmed you down (On God), even if it's just for the day

I know that trust don't come easy, you might as well leave me, just go (Just Go)

Didn't wanna be the one to get cussed when you phone when it's late at night (Night)

Now I'm on the other side of that bitch when it rings and I hit decline, ay, yeah

I know that love don't come easy, don't say it, just leave me, just go

Didn't wanna be the one, I didn't really need someone until I found you

Now I couldn't call your phone, now I couldn't call this home if it's without you, yeah

I know that love don't come easy, so, baby, don't leave me, don't go

Didn't wanna be the one, I didn't really need someone until I found you

Now I couldn't call your phone, now I couldn't call this home if it's without you, yeah

I know that love don't come easy, so, baby, don't leave me, don
't go
