

# Let You Down

RILEY

Say you'll never be the one for me but I'm the one for you (Ay)  
I know you hate it when I'm leaving town, I'm never coming back to you (Ay)  
Yeah, I fucked up, it's okay  
I hear you throwing 'round my name  
I know I, I'm not right for you

All you ever did for me was cry  
I got you thinkin' 'bout me every night  
Is this what you wanted?  
Told you from when we started  
I would be the one, the one that let you down

I know you hate I'm in your head  
When I leave your texts on read  
But I'll never be the one to stick around  
Yeah, I know you're feeling used  
Everytime I tell the truth  
Baby I'm gon' be the one that let's you down  
Gon' let you down  
Gonna be the one who  
Let's you down

I don't wanna talk, I don't wanna listen no more  
I don't wanna wake up in your bed again  
I don't wanna be here, I ain't tryna fuck  
Drank too much, and you won't shut up  
You're just tryna make the guest list

And I had sex with your best friend  
She left her blow on my nightstand  
I know that we will never be the same  
I had the pills from my dresser  
As I got high I undressed her  
You know I'll always be the one to blame

I know you hate I'm in your head  
When I leave your texts on read  
But I'll never be the one to stick around  
Yeah, I know you're feeling used  
Everytime I tell the truth  
Baby, I'm gon' be the one that let's you down  
Gon' let you down  
Gonna be the one who  
Down  
Gonna be the one who

I'm gonna be the one that let's you down  
I'm gon' be the one that let's you down  
Gonna be the one who  
I'm gonna be the one that let's you down  
I'm gon' be the one that let's you down  
Gonna be the one who
