

# No Limit

RILEY

Riding through the city with my lights on  
She ain't lived it down since the last time, nah  
She don't wanna fuck but she still fuck with me  
She wanna fall in love, but not in love with me  
Clothes off, touching me, yeah

I got it bad for another one  
She held me down like she did  
I know you wanna be "another one"  
She throw it back like

I been going on for like a hundred miles a minute  
85 to 4-0-5, you got me out my limit  
I took her to places that I know she never been  
I moved her to cities that I know she never lived

I know you're not ready for the time to settle down with me  
Wanna stick around with me  
Wanna hold it down for me  
She just wanna party with her friends in the hills  
And she got a body like a bugatti, gave me chills

I'mma wake up and pop a seal in the morning  
And they say nothing for it  
I know she's a libra but she act like a Taurus  
She don't fuck with all this tour shit

You'll be planning  
I'll be at 695  
You'll be, you'll be

Everyday she contemplating leaving me  
It's funny cause I don't know where you've been  
Everytime I'm driving through your city  
It's different person you will see me with

She wanna ride with the city lights  
Never turn down for the night time  
Inhale it through her nose until she feels right  
She found God after midnight

I been going hard for like a hundred miles a minute  
85 to 4-0-5, you know I'm at my limit  
I took her to places that I know she never been  
I moved to a city she ain't never lived

I know you're not ready for the time to settle down with me  
Tryna stick around for me  
Wanna hold it down for me  
She just wanna party with her friends in the hills  
And she got a body like a bugatti, gave me chills

I, I've been cold  
I don't know  
How to take it slow

I thought that you would stay down, 695

Thought that you would

I been going hard for like a hundred miles a minute  
85 to 4-0-5, you know I'm at my limit  
I took her to places that I know she never been  
I moved to a city that she ain't ever lived

I know you're not ready for the time to settle down with me  
Tryna stick around for me  
Wanna hold it down for me  
She just wanna party with her friends in the hills  
And she got a body like a bugatti, gave me chills
