

# NOT SOBER

RILEY

(Will you still think about me when we're older?)  
(Will you still think about me when I'm older?)  
(Will you still love me if I'm never sober?)  
(Will you still love me if I'm-)  
(Will you still love me if I'm-)

Yeah, you told me don't come over anymore  
That you don't know me anymore  
You don't love me like you used to  
(Like you used to)  
You told me what I needed wasn't you  
And I believed you like it's true  
I know you're glad that it's over  
(That it's over)

Oh, let's be honest, you don't have to promise  
Maybe when I'm sober you will love me like you used to  
(Love me like you used to, love me like you used to)  
I know I scared you, put us in the rearview  
You kept your composure in the shit that we've been through  
(Shit that we've been through, shit that we've been through)

Will you still think about me when we're older?  
Will you still want me if there's never closure?  
Will you still love me if I'm never sober?  
Sober, not sober  
(Will you still think about me when we're older?)  
(Will you still think about me when I'm older?)  
(Will you still want me if there's never closure?)  
Sober, not sober  
(Will you still think about me when we're older?)  
(Will you still think about me when I'm older?)  
Will you still love me if I'm never sober?  
Sober, not sober

I know you didn't wanna be the one to find out  
How bad it is that's why you called the timeout  
Even when I'm fucked up you know you're on my brain  
(On my brain)  
But lately, I just haven't been enough for you  
Now everything I take is either white or blue  
I know that I'll never have enough to kill this pain  
(Oh no)

Oh, let's be honest, you don't have to promise  
Maybe when I'm sober you will love me like you used to  
(Love me like you used to, love me like you used to)  
I know I scared you, put us in the rearview  
You kept your composure in the shit that we've been through  
(Shit that we've been through, shit that we've been through)

Will you still think about me when we're older? (Older)  
Will you still want me if there's never closure? (Closure)  
Will you still love me if I'm never sober?  
Sober, not sober  
(Will you still think about me when we're older?)  
(Will you still think about me when I'm older?)

(Will you still want me if there's never closure?)  
Sober, not sober  
(Will you still think about me when we're older?)  
(Will you still think about me when I'm older?)  
Will you still love me if I'm never sober?  
Sober, not sober

I know what you've been through  
There's no more tables for two  
I know you won't love me 'till I'm sober  
And I know what I put you through  
I know you found somebody new  
Maybe you're better off that it's over

Will you still think about me when we're older? (Older)  
Will you still want me if there's never closure? (Closure)  
Will you still love me if I'm never sober?  
Sober, not sober  
Will you still think about me when we're older? (We're older)  
Will you still want me if there's never closure? (Closure)  
Will you still love me if I'm never sober? (Sober)  
Sober, not sober  
Will you still think about me when we're older?  
Will you still want me if there's never closure?  
Will you still love me if I'm never sober?  
Sober, not sober  
Will you still think about me when we're older?  
Will you still want me if there's never closure?  
Will you still love me if I'm never sober?  
Sober, not sober
