

# RUNNIN

RILEY

The fuck goin' on right now?

Now we droptop cruisin' down Melrose (Mel, Mel)  
On the way to Beverly Glen, baby, yeah (Shake my head)  
I'ma stop two times down Rodeo (Down west)  
So I can holler at some of your friends, yeah, yeah

Ay, they ain't ever seen no one like me (Like me)  
They ain't never made bread off Nike (Bands)  
They just hangin' at the club like they do, oh (Velcro-rap, bitch)  
They ain't never ruled a Benz nightly (No, no)  
Bendin' corners, switchin' lanes like Mikey (Mike Jones)  
They ain't never been to Warwick like you (Like you)

Oh, are you staying, are you leaving?  
If I go, runnin', runnin'  
Runnin', runnin', runnin'  
Are you stayin', are you leavin' if I go?  
Runnin', runnin'  
Runnin', runnin', runnin'

The way you work that body  
In that Versace  
Hold you tight like [?]  
Even when I'm runnin', runnin'  
Brand new Maserati, or that Bugatti  
Just stay right beside me  
Even when I'm runnin', runnin'

Runnin', runnin'  
Runnin', runnin'

Switched the whip, now we out on the boulevard (Yep)  
Cherry red, candy paint, and it's full of cost (It's so packed, it's fun)  
Why does everybody think I'm a superstar? (Drivin' a fancy car)  
Took a pill in LA, now I'm cooling off, cooling off (Are my clothes on?)

They ain't seen no one like me  
They ain't never made bread off Nike  
They just hangin' at the club like they do, oh  
They ain't never ruled a Benz nightly  
Bendin' corners, switchin' lanes like Mikey  
They ain't never been to Warwick like you

Oh, are you staying, are you leaving?  
If I go, runnin', runnin'  
Runnin', runnin', runnin'  
Are you stayin', are you leavin' if I go?  
Runnin', runnin'  
Runnin', runnin', runnin'

The way you work that body  
In that Versace  
Hold you tight like [?]  
Even when I'm runnin', runnin'  
Brand new Maserati, or that Bugatti  
Just stay right beside me

Even when I'm runnin', runnin'

Even when I'm runnin', runnin'

Even when I'm runnin', runnin'

Even when I'm runnin', runnin'

Are you staying, are you leaving if I go?
