

SPACE

RILEY

Black suv when we land
Fresh off the flight from Japan
I wanna feel something
We blowing premium gas
Shorty got premium fans
When we in the streets we just friends
She got her eyes wide shut
She fell asleep off them xans
She want a trip to tulum
She want the bag I assume
She want the cameras and tmz poppin up
Every time I'm in the room
Don't show my pin when I drop it
You know my anxiety's poppin
You already know that it's straight to the back of the club from the moment
I walk in
Put your head down and try to ignore it
I been papi for way too long to too many shorties
Said you wanna be a model then model it for me
Said you wanna be a model then model it for me

I need space
Get all the these flashing lights up out my face
I don't need no more parties in LA
I just need more money right away
I'll be ok
Be ok
When I'm drop top I'm cruising I'm on rodeo
And I might bump into shorty I'm tryna lay low
I'll be ok
Just get these flashing lights up out my face
I need space
I need space

I drive the foreign real fast
Speed at 100 on dash
She want to feel something
But shawty she don't want to crash
You're M.I.A
Cause you never listen to what I say
What I say, when you say
She want a trip to Dubai
She want to fuck on the flight
She want her drinks on the ice just a little
Cause she want the pills on the side
She said a prayer in her mind
If we all don't die young
I'll be fine
I'll be fine
Well I'm so sorry that it ain't fair
When you hit my line and I just ain't there

You lost control it's not the same here
If you want to die then I'll just wait here

I need space
Get all the these flashing lights up out my face

I don't need no more parties in la
I just need more money right away
I'll be ok
Be ok
When I'm drop top I'm cruising
I'm on rodeo
And I might bump into shorty
I'm tryna lay low
I'll be ok
Just get these flashing lights up out my face
I need space
I need space
