

She live off the 101 highway  
98' Corolla in her driveway  
Lately I been tryna get her out my mind but she never really did shit  
my way

Just know I've been down still  
You and me been going downhill  
And lately that's the reason that you put me through the side and got  
so high that you can't feel

Baby don't get comfortable  
Baby let me know it's true  
I don't wanna wait, I don't wanna try to be your man  
Baby let me know it's through

If you let me go  
I ain't coming  
I ain't coming

If you let me go  
I ain't coming  
Down for you, down for you

Used to want a child from me  
Used to beg me all night, "cum inside of me"  
You been out late doing what you wanted  
You don't need me, make the call let's be off this

You and I  
Low ride  
When I hit it  
No touch  
Got you going crazy  
And you like it  
Can't fight it

So baby let's be honest with each other for once  
You're the one that said that "Love Was Never Enough"  
You're yelling, "take me home!"  
Now let's go, I'll let go now  
Baby I'm coming down from you

If you let me go  
I ain't coming  
I ain't coming

If you let me go  
I ain't coming  
Down for you, down for you
