

# Ain't Even Started

Rilès

Everybody wants to bite the piece of the cake  
No, you won't go 'fore you got your name  
Carved in minds of who you really praise  
Everybody wants to take your seat forsake  
You shall not go after you made it, man  
No enough to get the man a name

From the bottom of the jungle  
To the perfume of a blunt  
Gotta quit the Remington  
From the beauty of the sun  
To the booty of my girl  
I won't leave you 'till I'm done  
I know I gave it lot of praises  
But damnation feels like it's fading away  
I know I gave y'all lotta hard times  
Thought my mission would end after 52 songs  
Shut down the suicide doors  
This is my life, homie you decide yours  
Y'all know that Ye was my force  
This ain't my time I still gotta eat more  
Y'all know that he talked to me  
"Find a way to tell'em  
Then you'll go back to me" wut?  
This is how it was supposed to be  
I don't want that shit anymore  
Sorry Lord I'm more than just a puzzle  
I know I'm running the risk  
Won't ever know what's rest  
Oh no no  
I know I'm running the risk  
Don't you want me to dare?

Tell my family it's just the dawn  
Tell my homies I'm on my way  
Tell my baby don't say 1st round  
Cuz I ain't even started yet  
Tell my family it's just the dawn  
Tell my homies I'm on my way  
Tell my baby don't say 1st round  
Cuz I ain't even started yet

Crooked mind  
Shady ideas  
Relentless will  
Are perfect pieces for the bam bam  
Time saved me many times  
I always knew that patience  
would've been one of my best friend  
You bungee jump  
Me, marathon in this game  
Better keep my pace on track  
I run, run  
This empire's too young if you leave it  
I swear the foundations gon' swiftly fall down  
I know I'm running the risk  
Won't ever know what's rest

Oh no no  
I know I'm running the risk  
Don't you want me to dare?

Tell my family it's just the dawn  
Tell my homies I'm on my way  
Tell my baby don't say 1st round  
Cuz I ain't even started yet  
Tell my family it's just the dawn  
Tell my homies I'm on my way  
Tell my baby don't say 1st round  
Cuz I ain't even started yet

Let's  
Beat the frame around the fakers  
Not in your TV but will appear in your cabesas  
Let's  
Be the ones you'll always always notice  
Leave a chance on the ground and Imma be there to take it  
Let's  
Gain back the 20lbs I lost  
And give my face its true color  
I'm sick of that dull  
Let's  
Stay here till forever  
Till he takes me  
Back to heaven

Tell my family it's just the dawn  
Tell my homies I'm on my way  
Tell my baby don't say 1st round  
Cuz I ain't even started yet  
Tell my family it's just the dawn  
Tell my homies I'm on my way  
Tell my baby don't say 1st round  
Cuz I ain't even started yet
