

## Alive

Rilès

"Hello Rilès, how you doin' now?  
I'm not used to calling you  
Feels like we need to talk  
I went through your latest lines  
And saw suicide  
Tell me that I'm wrong  
Don't tell me I am fucking right"  
I said "I'm alive"  
I'm alive  
I'm alive  
Even when I'm weak I told you it's gon' be alright

Read it better  
Though you might read it well  
Silence is killing me  
I resurrect  
Those who really know me  
Know I got strength  
Mind of a Shaolin  
Shapen in steel  
They don't want to play my shit  
They don't want to see me win  
Bouwhouwhouwhou  
You're thinking that makes me sick?  
To the point I'd kill myself?

"Hello Rilès, how you doin' now?  
I'm not used to calling you  
Feels like we need to talk  
I went through your latest lines  
And saw suicide  
Tell me that I'm wrong  
Don't tell me I am fucking right"  
I said "I'm alive"  
I'm alive  
I'm alive  
Even when I'm weak I told you it's gon' be alright

Wait, wait, wait  
I don't really trust ya  
Is you really ok?  
Can I believe your lies?  
Wait, wait, wait  
I don't really trust ya  
Lately you've been so strange  
I just want to know more  
Listen I ain't even got time for it  
Trouble is calling but phone is on silent  
25 more, I'm killing the game  
You got the message if I don't reply it  
I got all the keys but ain't no lock on here  
Often feeling blessed but in the Vilain's realm  
Maybe I'll come up if I just disappear

"Hello Rilès, how you doin' now?  
I'm not used to calling you  
Feels like we need to talk

I went through your latest lines  
And saw suicide  
Tell me that I'm wrong  
Don't tell me I am fucking right"  
I said "I'm alive"  
I'm alive  
I'm alive  
Even when I'm weak I told you it's gon' be alright
