

Baby girl
A sensation
On the low
Would you fill me up?
Would you fill me up?

Baby girl
I see you alone and slaying on your way
I've been watching you not far from myself
Wishing I could've called you my own

You gotta know
Cocaina
Cannot solve
Your dilemma, your dilemma

Touch me softly
Kiss me harder
Take my body
Put me higher
Put me higher

Hey baby
Touch me softy
Kiss me harder
Squeeze me all the way
You can use me now
I want you oh

I know she come from Beriz
Sex and tension she cherish
Paris' nasty, not Beriz
All them fools been her fetish

I know she come from Beriz
Sex and tension she cherish
Paris' nasty, not Beriz
You're running on my soul

I want you bad, too bad you're bad too
You miss a man, he bad, you're mad fool
Don't run away
All for the sins
Them nights ain't looking the same

I want you bad, too bad you're bad too
I miss a girl, she mad I want you
I ran away
'Lone with my sins
Don't turn them nights to regrets

You gotta know
Cocaina
Cannot solve
Your dilemma, your dilemma

Touch me softly

Kiss me harder
Take my body
Put me higher
Put me higher

Hey baby
Touch me softy
Kiss me harder
Squeeze me all the way
You can use me now
I want you oh

I know she come from Beriz
Sex and tension she cherish
Paris' nasty, not Beriz
All them fools been her fetish

I know she come from Beriz
Sex and tension she cherish
Paris' nasty, not Beriz
You're running on my soul

I know she come from Beriz
You running on my...
From Beriz
Fr-from Beriz
From Beriz
You running on my...
