

BURNING STAR

Rilès

Baby, every time you come back home
It reminds me I hate being alone
When there's silence by my side
I feel like another one
Thinking how I used to be
Something I ain't tryanna leave
What's the point to be someone they used to know

I don't really want to fade in
I'd rather burn out, Mama I'm a star
Everything I want, I have it
So why the flavour is turning bitter now?
Everybody's tryanna make it
Everybody's gonna be a star
I'll just leave the room in silence
For a new one on a brighter side

Enemies, enemies, they will not take me down
Cuz I know, I know, I know I'm the baddest one inside
I used to love what I'm hating, I used to be full of passion
I used to see what I dreamed of, not what's on my way
There won't be another season, there can't be another reason
There won't be another tour after this summer ends
Maybe have I done a bit too much
Maybe have I gone the wrongest way
I will be living with no remorse, I will not leave with any regrets

I don't really want to fade in
I'd rather burn out, Mama I'm a star
Everything I want, I have it
So why the flavour is turning bitter now?
Everybody's tryanna make it
Everybody's gonna be a star
I'll just leave the room in silence
For a new one on a brighter side

I don't really want to fade in
I'd rather burn out, Mama I'm a star
Everything I want, I have it
So why the flavour is turning bitter now?
