

# Drop It Like It's On Fire

Rilès

Drop it like it's on fire  
Do it like this, never seen before  
Drop it like it's on fire  
She got that... and I want some more

Look over here  
Watch over there  
All them niggas at the party under your spell  
Look in the air  
Watch it goes low  
And you know how to do it  
Yeah you do it like woah  
And she bounce that shit  
She drops that split  
She got everybody wondering "What's that trick?"  
Oh that girl so slick  
Plus her peach so thick  
I call that 'confidence'  
But others call that 'bitch'

Show them how to run it  
It's your time baby girl don't stop it  
Imma give it to you  
If you keep shaking like Beyoncé

Drop it like it's on fire  
Do it like this, never seen before  
Drop it like it's on fire  
She got that... and I want some more

Can you do it?  
While I'm under?  
We can try it out and workout together  
Imma be sweet  
But I can be tough  
Imma make sure you get what you deserve  
Don't tell anybody  
Keep it on the low we leave the party  
No one's at home so please be crazy  
No we ain't about to sleep I hope you're ready

Show me how you run it  
It's your time baby girl don't stop it  
Imma give it to you  
If you keep shaking like Beyoncé

Drop it like it's on fire  
Do it like this, never seen before  
Drop it like it's on fire  
She got that... and I want some more
