

I work too much  
I forgot to sleep  
I don't really know what's so wrong with me  
Guess I'm too loco  
Though they're too steady  
I stopped running for help  
Made my own medicine  
And they're all asking for the recipe  
But where's your gut when I'm talking about the chapter 6?  
First one is the Passion  
Second is the Will  
Third about the Talent  
And Fourth Regularity  
Fifth is talking strength  
Sixth sacrifices  
But you already missing the third  
And the Second wasn't it  
Cuz you do it for the likes  
The intagrams and the fame  
But, nigga, your love for music is as strong as you can't play it

Living like a vampire  
You did but Imma do better  
In the game I got no brother  
I take risk, you sleep, I kick, you click  
I build an empire  
Empire, Empi..., Empi..., Empire  
No lie, Admire  
Let me put the game on fire  
Empire, Empire, Empi..., Empi..., Empire  
No lie, Admire  
Let me put the game on fire

My anxiety's stressin' out  
Under pressure  
No depression if I'm fine  
Geometry's never been my thing  
Why I don't understand why I always cross the line.. and I'm  
Ending up every single doubt  
Me, myself and I, but you can come if you got ass  
Plus you got a friend? Ouhh she really fine... nah  
I'm sorry babe, finally I ain't got the time  
RilèSundayz first, I won't say it twice  
Eating all these rappers then I'm shittin' on their grass  
One hand for the slap  
Five fingers for the fist  
But you only got a song out  
Why you're sounding like you quit?  
Sheeesh

Living like a vampire  
You did but Imma do better  
In the game I got no brother  
I take risk, you sleep, I kick, you click  
I build an empire  
Empire, Empi..., Empi..., Empire  
No lie, Admire

Let me put the game on fire  
Empire, Empire, Empi.., Empi.., Empire  
No lie, Admire  
Let me put the game on fire
