

I Love It

Rilès

I see they don't want us here
I know they're feeling the thrill
She wanted me to come by
But didn't know Rilès moves with the crib
Calling me for your party
Only when I be buzzin'
I do appreciate the love
So I'm bringing all my niggas with me
Now I got a little bit of fame
I little bit of money
And a little bit more heys
A little bit more fake friends
Who want to bite the plan
Tho I got my bulletproof vest
We made over the years
You see me like a freak
Let me show you how I feast
Waseem got his pad on
So fuck your radio playlist
You wanted to use me
Show your friends that we were friends
Now we're in your momma's house
T'd up like we always did

So you said "it's been a while"
You only miss me when I'm gone
Rolling up, pouring up
Screaming "fuck'em all" loud
No we've never changed

You don't really want us all around
I thought you knew me so wassup now
I love it when you want us to stop
I love it when you see what we're on
You don't really want us all around
I thought you knew me, what you gon' do now?
I love it when you want us to stop
I love it when you see what we're on

I know we're looking dumb
You want us out
If it ain't yours babe
It's another one
I love the way we're not caring 'bout nothin'
It's only for those nights I don't want to leave y'all
Han
Savage on savage on savage
Pass me the weed I won't pass you my problems
Last night I ran too much
Y'all see me stressin'
You came on time
I did not hit the bangbang
Always too much
Hopefully never enough
Come with the gang
You gon' forget your girl
I'm not the Rilès you saw or you heard

I'm Rilès 'You should've known me better"
From the backseat
We spent all those nights
Freestyling 'bout shit
You've been dancing, dancing, dancing over now

So you said "it's been a while"
You only miss me when I'm gone
Rolling up, pouring up
Screaming "fuck'em all" loud
No we've never changed

You don't really want us all around
I thought you knew me so wassup now
I love it when you want us to stop
I love it when you see what we're on
You don't really want us all around
I thought you knew me, what you gon' do now?
I love it when you want us to stop
I love it when you see what we're on

You'll never replace the time
You better let us dare
I'm on a mission, you're not
You better let us dare
You'll never replace the time
You better let us dare
I'm on a mission, you're not
You better let us dare

You don't really want us all around
I thought you knew me so wassup now
I love it when you want us to.. Shut the fuck up
I love it when you see what we're on
You don't really want us all around
I thought you knew me, what you gon' do now?
I love it when you want us to stop
I love it when you see what we're on

Rilèsundayz every Sunday
Rilèsundayz every Sunday
Rilèsundayz every Sunday
I'm killing the game every Sunday
In my bedroom every Sunday
Mix, mastered, engineered only by me
In my bedroom every Sunday
And y'all niggas act like you still don't see me
