Run  
Get the fuck

Never stoppin ever since I'm in the race  
Speak facts , can't afford a cheaper talk  
I'm reaching for the highest, deep inside of me  
That power never lied to me  
I'm sipping from the source code  
I pass by demons on a daily basis  
And bypass bitches from the crowd noise  
I can't die, if I wanna fast life  
Bellek on my hindsight, figure it out  
Hands in the air, guns in the pants, down low  
Hagar a jinx, aim at the head, moro  
Raising the vibe, waves on a crescendo  
Roll up your sleeves or  
All for the win, kick it or keep drowning  
Step in the real life isn't bout scaping  
Trophies or deeds on my mind  
I'm on peak, shit is tough  
So I is on my life  
Imma

Get down or sit down  
Get big or stay mad  
Losing hope but there's a seed now  
Wake the fuck up, shit is real out  
Get down or sit down  
Get big or stay mad  
Losing hope but there's a seed now  
Get up for the realm now  
Shit is really real out

It's all the head now, no matter what  
You gotta keep the vibe going, and use your mind!

Can't stop right there  
Can't fail me now  
I'm starving, more wins  
I won't stop shit  
Won't stop, started from a futon  
Done break down, that shit was like a new stunt  
Keep taxing, I'm mary poppin' my bag  
Still want me dead  
Can't stop, it's clocking like a Richard  
Brick mental, we talking 'bout a Ming wall  
I kill a prey  
Praise the lord  
Face the jinx  
To fix the s3ol  
A3oudoubillah

Get down or sit down  
Get big or stay mad  
Losing hope but there's a seed now  
Wake the fuck up, shit is real out  
Get down or sit down

Get big or stay mad  
Losing hope but there's a seed now  
Get up for the realm now  
Shit is really real out

"What the fuck is going on here?"

Run motherfucker, run  
Never slow down  
No time for the past  
When the present is doubt  
Gotta lotta shit to do and looking behind is the trap  
I been escaping the desert but they been following my path  
Run motherfucker, run  
Don't you slow down  
No time for the doubt  
When a feelin ain't right  
Gotta lotta shit to lose if I ain't finishin the lap  
I been escaping my demons, they were just hangin on my past  
You won't bite me now  
You can't bite me (now)  
20 MK in my bag gonna make it rain (for ya)  
Reality's (not)  
Talkin to you (why)  
Fucked up by parasite, watashi Ashitaka

But I was born a warrior, leader  
Never ever lost grip  
Survival or extinct  
Betting on my instinct (what the fuck you mean)  
It's matter over matrix, pray I'm never  
Hanging at the top over the trees  
Dodgin when I'm walking like a gyptian  
I make it lookin easy  
Visualizing it before you bleed  
I'm killing with the power of a preach  
Genkidama weld'blazing  
I'm teaching for ones who want to quit  
Issa a pencil or a pill  
Who the fuck you think you is?  
Nobody's gon finna save you ass  
If your ass on a bench  
Wake the fuck up  
Fuck a chance  
Or go

Get down or sit down  
Get big or stay mad  
Losing hope but there's a seed now  
Wake the fuck up, shit is real out  
Get down or sit down  
Get big or stay mad  
Losing hope but there's a seed now  
Get up for the realm now  
Shit is really real out
