

It's Just The Beginning

Rilès

Bitches blacking out at my shows
12 hundred selling out, no tour
Million plays with no videos
And it's, and it's
Just the beginning
Gon' tell my boss I quit that job
Beautiful women in my phone
Overseas fucking with my songs
And it's, and it's
Just the beginning

You lose or you learn
You face or you turn
Never had a middle man
Cuz I can't trust no one
5 years ago been to a studio to record a song
Quality was cheap as fuck tho he said he was a pro
Decided to build my own in my tiny bedroom
Fuck how long it will take me to raise the money
I knew
I had to be patient and work my ass off twice more than y'all
I read them books and watched them tutos
Aside of my 2 jobs
Sleepless nights to get this knowledge
And look at me now
4 years later I'm back and feeling stronger than ever
Y'all said I'll never be able to make it all by myself
4 years later look at all these people screaming my name
Yeah I got

Bitches blacking out at my shows
12 hundred selling out, no tour
Million plays with no videos
And it's, and it's
Just the beginning
Gon' tell my boss I quit that job
Beautiful women in my phone
Overseas fucking with my songs
And it's, and it's
Just the beginning

My story's History
Not run by your rules
The old white man
Cannot decide for youth
How many wish me to win
But hope I lose
Lot of you owe me my time back
Shame on me for being good
Trying to box me
You say I cannot do it
They just want me to rap
Then fucking shut it
Music videos
Yeah man, I all made them
African blood
We're used to work everything

Back and forth in Paris
Talking, talking business
Tattoos Rilèsundayz
Shoutout to the real fans
Bringing all my niggas
And we turn up on stage
Fucklalife jumps in the crowd
And he be making

Bitches blacking out at my shows
12 hundred selling out, no tour
Million plays with no videos
And it's, and it's
Just the beginning
Gon' tell my boss I quit that job
Beautiful women in my phone
Overseas fucking with my songs
And it's, and it's
Just the beginning

It's just the beginning
I plan everything since 16
I you didn't know
Where you been?
Wake the fuck up
It's just the beginning
Always turning thoughts into things
If y'all niggas still be sleeping
Wake the fuck up

Wake the fuck up man
You see it? Look it flies
Time
So let us dare before we die
