

LET'S GO

Rilès

Let's go let's go let's go let's
Go let's go let's go let's go
Ah ah
Let's go let's go let's go let's
Go let's go let's go let's go
Ah ah
Easy man makin' them choices
Easy man getting that bread
Back on my shit, I was lost
Back on my dick, on myself

Let's go
Let's go
I'm making pesos
I'mma stop crying my ass, switch to beast mode
I was waiting for a flip, it's on me tho
Fuck how they're feeling, I'm feeling tremendo
I'm back on my independence
I'm better when I'm producing
Fuck all the labels
Fuck if you said "need to switch it"
My style remains undefeated
So I better walk on my own
Gems in my zone
Get'em alone
Pray it never stops
See me with the glow through the songs
Done with the moan
Down to my bones
Bish I'm back on track
Nothing but facts
Watch me get in back to back
Watch bring in all the stacks
Marvellous slaps
First gotta put some respect
My name means I never quit
Bitch

Let's go let's go let's go
Let's go let's go let's go let's go
Ah ah
Let's go let's go let's go
Let's go let's go let's go let's go
Ah ah
Easy man makin' them choices
Easy man getting that bread
Back on my shit, I was lost
Back on my dick, on myself

Ouhh
I'll never look back, I'm driving
My neck was hurting from past tense
Watching my hand when distracted
And I'm doing me like a porn scene
I cannot chill I got fidgets
I cannot speak on strategies
I cannot give any minute

Cep if you talking 'bout digits, riches

Wow shit,
Get more done
Don't let the pain take over
Wish me luck geez
22 more
And I'mma feel much better
Get more Ms
Upside downs
Fuck your bank
Get my stones
I don't dance
I go dumb
I'm too brazy for the throne, ey

Let's go let's go let's go let's go
Let's go let's go let's go
Ah ah
Let's go let's go let's go let's go
Let's go let's go let's go
Ah ah
Easy man makin' them choices
Easy man getting that bread
Back on my shit, I was lost
Back on my dick, on myself

Let's go let's go let's go let's go
Let's go let's go let's go
Ah ah
Let's go let's go let's go let's go
Let's go let's go let's go
Ah ah
Easy man makin' them choices
Easy man getting that bread
Back on my shit, I was lost
Back on my dick, on myself

Running them jewels
Ain't feeling worrisome
Heavy hearts and navy rum
Don't talk to me saying "where you been", like you was caring for
I start feeling a switch
It's September 5, 2021
And I think that I got it

I been through the worst since I released my album
I did try to kill myself before it was on platforms
That's why the hourglass and the enigmas,
With the lies and the past coming back way too fast
But it's the past now (pitch down)

From now everyday's gon be, the greatest day
And you'll be the best version of yourself, with no runaways
I don't want views, rather want to proove myself
That you can fall down I get up 10 times higher

I will proove all y'all listening right now
The power of the mind on my reality

Starting from this very day now
You will witness my transformation

Let us dare before we die, but don't die now
RilèSundayz forever

I had demons
Using my power against me
Strange demons
Abusing my reality
But it's over now
But it's over now

I was born with a gift
The gift of shaping my thoughts into things
And I'm taking this gift back
