

# LONELY NIGHTS

Rilès

I really try to be my best now  
Came back to where it started  
Awaiting for the better days now  
Only as long as you're there  
I never really said I'm sorry  
Cuz I thought I'd make me stronger  
I never really say I really worry  
I just keep that for my own

Only  
On lonely nights  
I'm wandering around  
In rounds  
Still fight  
Demons on my own  
Lonely  
Nights  
Wandering around  
Slowly, on the run

When I smoke  
And I drink  
With hoes and the cheers  
It's to feel more than I'm blank  
I don't know  
What is in  
Deep inside  
Yet I'm keeping  
The best part for myself

Would you still love me  
If I tell you my worst  
My baby  
Would think 'bout us  
Or  
Am I tripping on my own  
(Am I tripping on my own?)

Would lie to me  
If I told you shit  
That I never said to no one  
Am I tripping again alone

Only  
On lonely nights  
I'm wandering around  
In rounds  
Still fight  
Demons on my own  
Lonely  
Nights  
Wandering around  
Slowly, on the run

Can you  
Kill petty vibes  
Bring

Pretty lights  
Pick  
Feelings right  
Ease on  
My side  
Make living worth it  
Just for the night  
When I'm on my  
Worst behavior  
Falling again  
Is regular  
Filling the stress on paper  
Getting up as a hustle  
Shit I do when on my own  
So won't you  
Be by my side  
A little bit  
I'll show you what's under my skin  
Killing the time while enjoying the ride  
And not worry about what is gone

Only  
On lonely nights  
I'm wandering around  
In rounds  
Still fight  
Demons on my own  
Lonely  
Nights  
Wandering around  
Slowly, on the run
