

Maille

Rilès

I'm making this beat while on a flight, flight, flight
New York City, business class, alright, right, right
Don't go there for holidays so why, why, why
Ain't no secret nigga I just maille, maille, maille
Hotels, hotels, I don't pay it's fine, fine, fine
Started from my bedroom, see me shine, shine, shine
I'm gon meet Riri next week so why, why, why
Ain't no secrets nigga I just maille, maille, maille

Paint the picture
Think about it everyday until it's eats you
Until your life is just a way to smack that vision
Blind like a racer, don't look beside you
Keep on runnin' without caring 'bout the opponent
40 songs later I'm outside my content
All around the world my city I represent
I figured out I'm the first and the last one
Hey man, brake it down
We want to spend time with ya
I don't spend it anymore, my clock account is overdrawn
Hey sis'
Never quit
They know who your brother is
You gon' be exposed to lotta hypocrisy
Watch your friends

I'm making this beat while on a flight, flight, flight
New York City, business class, alright, right, right
Don't go there for holidays so why, why, why
Ain't no secret nigga I just maille, maille, maille
Hotels, hotels, I don't pay it's fine, fine, fine
Started from my bedroom, see me shine, shine, shine
I'm gon meet Riri next week so why, why, why
Ain't no secrets nigga I just maille, maille, maille

Checks on the flight
Arrested 3 times
Interrogations, my look is not right
Scars on my face
Afraid of my name
Why you here for?
Bitch I'm here to fuck the game, up
Feeling wassup
Rilèsundayz's location moving fast
Yet, still
Me behind me
Fire the engineer cuz I am mine
Thinking 'bout every move before I sign
It is a game of chess, not a Simon
I'm not impressed by your racks or your mics
Man, I'd rather my mix, even if I go blind
Who the fuck is 'front my face?
Work with him so talk like this
Got a really pretty face
But I won't remember the name
Who the fuck is on my dick?
Ouh you're trynna be my friend

I'm to paranoid, you're too nice
There's something hidden there
