

No Sleep

Rilès

Hey darling, don't worry 'bout me when you say

"Baby please go to sleep
Know what you really need
Slave of your fantasies
You keep on grinding, grind..
But the day I'm most afraid of is close to you
If you keep on tricking the night you gon' fall down
Yes you're bold, yes you're strong but not invincible
When your body 'gainst your mind cannot follow the song"

Honey don't worry 'bout me
I'm more than what you're thinking
Shapen amongst the kings
I won't turn tail for Satan
And they say Rilèsundayz gonna bang you up
I know.. what's the point? I'm foiling backpedals
I won't.. fall asleep until I end the run
Nights & days, days & nights.. what's the difference now

I trade my sleep for achievements, now I'm dreamin' up
For some it's the hustle, and for others it's just luck
It's 4 a.m. in LA when I'm writing all that stuff
I watched the sun falling asleep
I'll see it waking up

Waking up, waking up..
I'll see the sun going up..

"Baby please go to sleep
Know what you really need
Slave of your fantasies
You keep on grinding, grind.."
