

No Tears

Rilès

I ain't got no one to fear
I ain't impressed anymore
I don't see but I feel
Sour energy brought me there
Search into you and the paper's gon fill up itself
So fuck if you curse when I flex
Fuck I'm not kind and stupid, better serve me respect
I think I'm good at feeling bad
Don't be too nice when scavengers are ready to bounce
I picture plans in my head
Darker than Dinka
Venom pushing up my edges
I won't let dirt on my name
Do it for fun
'Front of me bitch you bargain
I ain't got a lot to sing
Still alive just for the hate that I hate, bitch
You gon' remember the name
Jungle ain't shit when you're beaten all over again
Smoking the shine in my eyes and I'm left with some apeshit
Enlighten but thoughts are the darkest
Wildin' everywhere but in the jungle
Come to R city we 'bout to fuck the freckles of your face
In you flaws you don't wanna, wanna
Racing against myself faster, faster
If I slow down it's the ganja, ganja
If I fuck up it's the karma, karma

No tears falling down my eyes
No fear left into my mind
All this evil turned me blind
I need to run towards the light
No tears falling down my eyes
No fear left into my mind
All this evil turned me blind
I need to run towards the light

Promise me you won't be falling
Say to me you are my greatest opponent
I keep the backbone solid
Tahia Djazaïr
Baba grew up in the sand and the mountains
Fuck what you heard if you hear what you're saying
Didn't like my song
You said "this shit's amazing"
I'm tired of the Yes-men
I'm tired of the Yasminas
Tired of the elephantshit I see

Ouh skibidibam
Back in her pussy it has been while (while)
Ouh shaking new hands
Fucking new bitches and making new songs (muy bien)
Ouh back and I run
Feel like my libido me never done
Why you keep on running when your legs already broken?

Now I'm putting down the 'juana
Back to the hagla
Is you really? I said kinda
Pray that my sins never come back
Bypass the drama
Look ain't no blood on my contracts
And imma dance like a warrior
Salam hyenas
You cannot switch off the phoenix
This ain't no threat but my simple statement
Welcome to the jungle Rilès vs Satan

No tears falling down my eyes
No fear left into my mind
All this evil turned me blind
I need to run towards the light
No tears falling down my eyes
No fear left into my mind
All this evil turned me blind
I need to run towards the light
