

PARADISE

Rilès

Paradise

Is when I look in your eyes I feel like there is no sin inside
I wanna know how you feel when you say loving is deep inside yo
ur soul

Driving for the ride

Living for the moment

And leave it all behind

I think you're right

When you trying to tell me I be more than I think I am

Been tryna fuck with myself

But lately love is not deep inside my soul

Sober from the pride

Zoning out the moment

Living in the past

Paradise

I used to think I should die to finally be at peace inside

I don't know who to believe between my demons and love inside m
y soul

Should I stay alive?

Living for the moment

Or leave it all behind

Why you crying?

I told you not to worry

Stop overthinking what's on my mind

You told me that you love me

It's enough for me to be alright

I don't even need to try try try try

When I look in your eyes
