

Resolution

Rilès

I think I need a girl who does meditation
'fore I go numb and fall apart
I need to go for resolutions
If I want to make it till tomorrow

Them drugs inefficient
I feel insignificant like juju and curses
Took the time to make a remake of my sins, choices, mistakes
Eyy
I know I'm gonna do it
Do it again
And even more

Chik chak
I face myself
Troubling both my wit, my sense
Buckle up
My 3ein, my din
Hopefully get down with finesse
Business
Distress
Merlich you forget yo self
I still didn't switch
Witness
My fall and then me ascent

And if you're there
Hesitacion
Would be just an illusion
Well if I sense
Your vibration
I won't ever be on my own

I think I need a girl who does meditation
'fore I go numb n fall apart
I need to go for resolutions
If I want to make it till tomorrow

I know sometimes its painfull
But I choose to keep it on the low
I did plan to tell a story
All these years trapped with my choice
Do it
Do not
Doubts and grow
Carefull
Juju
Domino
I guess I cannot backpedal
It's too late now

Hmm...

I think I need a girl who does meditation
'fore I go numb n fall apart
I need to go for resolutions
If I want to make it till tomorrow
