SOMEONE ELSE

Rilès

I know your my bae don't get me wrong
But you caught me in your bed when I was on
What you wanna know, you're waiting for
I know who you is not what you want
I got just a lil- just a doubt
Tell me if you want me all alone
I got wishes for us but you don't
When I'm on knees
Why you thinking I'm too dangerous?
When you hold my tears
Is you feeling what this means for us
Baby pourquoi tu prends peur?
J'ai pas voulu faire de mal
Baby don't you play it cool
If I leave now shit is no turning back

Baby sorry, you know it, I show it
I can't do all this lonely
Don't call it, our story
If you love me like I'm someone else
Love me like I'm someone else, hey
With someone else
Love me like I'm someone else, hey
With someone else, eyy

Ouhh, I don't want a sorry I want proof
I don't want your worries I want truth
I got enough on my mind I'm about to lose it
I might cross the line if I'm not foolish
Baby I feel hurting and love too
I'm sorry I need you, I'm sorry I want you
I'm sorry I want you, sorry I want you
Want you, want you bad (you bad)
You bad (you bad), so bad (so bad)
Baby girl oh you bad (you bad)
You bad (you bad), so bad (so bad)
Baby girl you bad (you bad)
You bad (you bad), so bad (so bad)

Baby sorry, you know it, I show it
I can't do all this lonely
Don't call it, our story
If you love me like I'm someone else
Love me like I'm someone else, hey
With someone else
Love me like I'm someone else, hey
With someone else, eyy
