

SOUL SPEECH

Rilès

I've been running to the side
On the streets with my woes
I've been all around the jinx alone
In the midst of it all

I've been running to the side
On the streets with my woes
I've been all around the jinx
If a 3ein is a gift

I've been running from myself
I was smart I had a plan
But never thought I could've breakdown
Never thought I could've die

I've been brought through spaceship
And my thoughts out of stone
Never look at what I did to me
Never thought of what could've been done

Never thought of what I did to me
Lost in me
Tough and alone
Couldn't face what I did to sh
And I paid for the price on the low

I've been running to the side
On the streets with my woes
I've been all around the jinx alone
In the midst of it all

I've been running to the side
On the streets with my woes
I've been all around the jinx
If a 3ein is a gift

Never fronting
Chasing
Fame and
Friendships
Pardon me if my love on the wrong side
Since I
I saw them
Faking preachings
Just to get on the front

I've been pumped for shit
They got tox' on their tongue
I'm accustomed to the minimum
... I don't want nothing more

Never blaming my faults
Sat on my pain
I don't want fame
But shit it's like I still love it
I want you bad
I'm ready for

Getting back on my own

I've been running to the side
On the streets with my woes
I've been all around the jinx alone
In the midst of it all

I've been running to the side
On the streets with my woes
I've been all around the jinx
If a 3ein is a gift

All these lights made me blind on top
She was there when my mind was not
I get truth back on my sight
All these years trynna step shit up
I was wrong didn't blame my faults
All I needed is trust in Time

I've been running to the side
On the streets with my woes
I've been all around the jinx alone
In the midst of it all

I've been running to the side
On the streets with my woes
I've been all around the jinx
If a 3ein is a gift
