

SURVIVAL

Rilès

As I let me dive
Into deep
In these waters right now
As I let me dive
I pray I wake up in heaven

As I let me dive
Into deep
In these waters right now
As I let me dive
I pray I wake up in heaven

Let me cut it straight into the bass
Didn't sin
Now you died in vain
Watch out
Watch out
Watch out
Ha ha
C'est comme ça que les demons refont surface
I won't make it to heaven
Without going through hell first
Tell me what you're surviving for

Got some brand new problems
And a brand new trauma
When I see Palestine
I'm a newcomer
My head in the front line
Got my back strong
It's always the same fight
Now it's not the same song
I still fantasize my harakiri
Yet I don't wanna hurt my habibi
So I fight and I fight
And I run and I fight
And I pray that my demons won't take over my

You
You can run
But can't escape your mind
You
You can fly
Your shadow's still behind
Don't give up
Don't regret it
You can fix the mess that you caused
