

# Ultimatum

Rilès

Stop wondering and just go  
Smoke but will not stoned  
Bitch believing in my soul  
If she wasn't there I would've probably been gone

I been drowning  
Cuban dolls, sins  
I been going down  
I been running  
Side my mind and  
I found nothing bright

I feel better when I'm home  
It feels like I wanna live forever  
Threw my balance in the jungle  
Pray for me if I ain't getting better

So keep on, keep on running  
Keep on running 'gainst the choppa choppa  
Keep on, keep on running  
Keep on running till you finally find it

Your trick's feeling like a déjà vu  
Was nobody's friend until I blew  
Fake promises, bless me with the truth  
Industry repeats its bullshit too  
I need lotta space  
Block your textos  
Sorry miss  
Don't want your fat ass  
In my bedroom  
Wait downstairs, oh  
Back at it again  
Going through my head  
Nah, it won't leave  
'Less I take a pill  
Or I hit the gym

I been drowning  
Cuban dolls, sins  
I been going down  
I been running  
Side my mind and  
I found nothing bright  
I feel better when I'm home  
It feels like I wanna live forever  
Threw my balance in the jungle  
Pray for me if I ain't getting better

So keep on, keep on running  
Keep on running 'gainst the choppa choppa  
Keep on, keep on running  
Keep on running till you finally find it

Trip away  
Fix your face  
Looking drained

Every night  
I been playing the evils  
Faking it  
Happiness  
Where you at?  
Surely not  
In the moist of her clito where...

I been drowning  
Cuban dolls, sins  
I been going down  
I been running  
Side my mind and  
I found nothing bright  
I feel better when I'm home  
It feels like I wanna live forever  
Threw my balance in the jungle  
Pray for me if I ain't getting better

So keep on, keep on running  
Keep on running 'gainst the choppa choppa  
Keep on, keep on running  
Keep on running till you find it
