

Can't Forget

RIMON

No one can forget
Can't forget what we had
But it's over now
But it's over now

I know we ain't talked in a minute
Know that it's all love from a distance
Caught up in these storms and conditions
Diamonds always shine due to pressure
Sometimes we move on for the better
Memories were gold, I remember
I ain't fell in love in forever
Ever, ever

No one can forget
Can't forget what we had
But it's over now
But it's over now

No one can forget
Can't forget what we had
But it's over now
But it's over now

Can't forget, what we had
What we had, what we had
Over now, what we had

How a day used to feel like three days
It's too late to latch on old ways, I wish
Who'd ever think the world was bigger than your bedroom then?
Our story could've gone both ways
And I'd lie if I said it ain't on my mind
Hope you feel the good in my goodbyes
Good, fore-good, fore-good

Know we don't talk we could talk about it
All the things that we said
You said that it's better I put things in ya face
Save your tears for later
For the sheets on the bed
You were screaming
You don't love him
You don't love him
Look me in the eyes like it mean nothing to me
You changed up over time but that does nothing for me

No one can forget
Can't forget what we had
But it's over now
But it's over now

Can't forget, what we had
What we had, what we had
Over now, what we had

I ain't got time for it, that's why

I'm here now
But at the same time, could use a hug time
Wish I had time for it, go through the same shit
Cause I know, you can't forget me
No one, no one can forget
No one, no one, no, no one can forget
