RIMON

Take me downtown, Imma roll with you  
Fears in my eyes, it is overdue  
Imma take the risk as I fall for you  
These suspicions were my habits, it's only déjà vus

Take me downtown, Imma roll with you

Imma take the risk as I fall for you  
These suspicions were my habits, it's only déjà vus

You grab the keys and hop in the whip  
Talk to me nice and tell me your wishes  
Give me your all, the moon is our witness  
Can you assure that I'm your religion  
Hold on, don't trip  
I know we could  
We're moving east on Hollywood  
Suspicious buried like they should  
Don't lie on me, just don't lie on me  
In chaos, there's the rose, the stems  
Imma pluck it with no regrets  
The outcome is right in my hands  
Don't die on me, just don't die on me

Take me downtown, Imma roll with you  
Fears in my eyes, it is overdue  
Imma take the risk as I fall for you  
These suspicions were my habits, it's only déjà vus
