RIMON

I'm running, I'm running
The moment I heard it
I guess I was nothing
And that new girl that you cuffed
Shit she is stunning
You stared me deep deep in the eyes
With a sense of guilt
Cause you knew what we build
You knew my boundaries
Instead you out here fucking after parties
With thotties

My neck filled with hickeys
And bruises
As soon as I met your manoeuvres
Like a vampire in the dark
Hunting for new blood, for new blood
Hunting for new love, for new love
To leave them new scars yeah
To leave them new scars yeah
To leave them new

My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust
My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust
My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust
My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust

Veins filled with dust
Pulses and rust
Used to, used to, used to
Swallowed my trust
Veins filled with dust
Pulses and rust
Used to, used to, used to
Swallowed my trust

You fronting, you fronting
You keep telling lies
I'm tripping, I'm bugging
All I did was give my all
Now I'm out here punching this wall
In a weird ass club
Drunk as fuck, shit
Got me stuck
In bad luck

Second time going through this
And you knew about my last one
Still you do me dirty like the last one

My neck filled with hickeys
And bruises
As soon as I met your maneuvers
Like a vampire in the dark
Hunting for new blood, for new blood
Hunting for new love, for new love
To leave them new scars yeah
To leave them new scars yeah
To leave them new

My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust
My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust
My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust
My veins filled with dust
No pulses but rust
Used to, circulate blood
Until you swallowed my trust

Veins filled with dust
Pulses and rust
Used to, used to, used to
Swallowed my trust
Veins filled with dust
Pulses and rust
Used to, used to, used to
Swallowed my trust

I wanna dive in clouds but clouds don't work for me
I wanna dive in clouds but is this what you need
I wanna dive in clouds but clouds ain't what they seem
Just how love deceives
Just how love deceives
Just how love deceives
I wanna dive in clouds but clouds don't work for me
I wanna dive in clouds but is this what you need
I wanna dive in clouds but clouds ain't what they seem
Just how love deceives
Just how love deceives
Just how love deceives
