

Nighttime

RIMON

I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
Got the moon in my backyard
And the stars looking at me
Got the owl looking in my eyes
Keep your energy away from me

Stacking up its a remedy, day to day
I hate the fact it pleasures me
Artificial love is all I see
Nightshift after night shift, just to please my enemies
Think I got stuck in this evil greed
Ego running
On a heavy speed
Silencing my mind, smoking trees
Nightshift after nightshift, guess its my identity

I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
Got the moon in my backyard
And the stars looking at me
Got the owl looking in my eyes
Keep your energy away from me

Gazing stares are feeding me
I'mma tease you out, I'mma tease you out
'Til the night ends
Gazing stares are feeding me
I'mma tease you out, I'mma tease you out, 'til the night ends
I chose this life this mimmic
Twirl around the atmosphere I'mma kill it
Is this fulfilling, I don't know
But its filling the bag yeah its a show
Cold blood, ambient lights
Auto pilot while I run through the night
Auto pilot while I run through the night
Auto pilot while I run through the night

I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
Got the moon in my backyard
And the stars looking at me
Got the owl looking in my eyes
Keep your energy away from me

I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime
I come alive in the nighttime

I come alive in the nightttime
I come alive in the nightttime
I come alive in the nightttime
I come alive in the nightttime
I come alive in the nightttime
I come alive in the nightttime
