

## Interlude

Rimzee

Yo, uh

Jail, survived it, R. Kelly, the whip white, the seats are cranberry

Remix a Young M.A, then I bruck the shot like Teddy

Get the low clapped, tun him like I'm [?]

Indoors makin' light

How's Snugga K doin' the ship up for the financial interest?

Ribber, akh when I look into the mirror, I can't see any realer

And rest in peace Tide, my nigga, Tide, man, I think about ridin'

Locked in confinement, sufferin' in silence

My dargs wanna kill my darg, four lions

I just wanna see P like pious

I went on Mixtape Madness 'cah my mixtape madness

Expensive habits, delicate fabrics

Me, I trap, rap and I'm bangin'

I'm an entrepreneur, Richard Branson

Bro [?] properly, I spoke to him yesterday

We came from trill estates, now we need real estates

I don't sip Cody, Audemar or the Rollie

Got more time than a Rollie 'cause I shot at the police

They never sent me a fiver, my next door with lifers

Makin' life changin' movements, my card, do this for my people

They look up to me, like a eagle

In their eyes, I was pack, In my eyes, we was equal

Allah, bless us with this hardship

Blowin' all this money in this people, like they're starvin'

Plus they had my brudda Kills locked up in Lartin

That's a jail in a jail, they say we done this to our self

My whole life's been a [?]

Destined to win with no intentions to fail

Catch it and he ratted 'cah they can't do jail

Free tip of five years in the same cell

Fee the Deezer, saw us like that was like a million years between us

Serve like Serena, I was servin' from a teeners

The beefin' on the 'net, I'm in the streets darg

Me, I bring it to you like a pizza
