

Morals & Principles

Rimzee

'Expensive Pain' video shoot, really had the hammer
Her man a real gangster, not no gangster rapper
Never bring a chick to the crib if I lay my head there
Never will I run and leave my bro unless the feds there
Morals and principles, before tapes I was selling hard in the physicals
Can't beef over the net, I'm from a different school
Can't beef over the net, I'm from a different school
Ever seen me and Frog on a glide? That's two trainers
You know a nigga aim head high, Mr Vegas
When we never had heat yet, yard man sent the ting
Said "Come back with no teeth left", bells like a T-rex
F a pop tune, step with a volver and a Glock too
Tryna catch dem boy before the blocks do
In the field Mo Salah, double digits on the ah-ah
You know I really went to war like Russia

Fifteen I was on the line, no assembly
Seventeen I got nanked up, they tried end me
Eighteen I tried get them seventeen out the seventeen
Twenty I weren't leaving the scene till it was empty
Fifteen I was on the line, no assembly
Seventeen I got nanked up, they tried end me
Eighteen I tried get them seventeen out the seventeen
Went jail twenty one, came home twenty seven G

On that prison yard, one hand on my tooly
Know I rap like Kanye but I zoot like Cudi
Rapper with my nig, not like Papoose
Tuna and mackerel, my hood know I spray it like Black Oudh
Things I done, we couldn't film them
Holding down the stills dem, guns bigger than children
On the opp block like I live there
I know they can't name a block we ain't been there
Them chicks love man, want me to slap her with my gun hand
Ever go up close and the gun jams?
Gotta keep my hands clean, I'm a mogul
But I'll still get you done via phone call
Shooters had to shoot back
Get them low where them yutes be at
Find a boy like Google Maps
