

Rain

Rimzee

I see the clouds getting darker and the days getting shorter
I feel the pain get stronger, I can't wait any longer

Rain on me, rain on me
Rain on, rain on, I feel the rain on me
Pain on me, I feel the pain on me
Pain on, pain on, feel the pain on me

Yo, uh, yo, my nigga got life and it ain't fair
Mamba praying for eight years
Now the Porshe got eight gears
Only God knows how we still smiling
They brought the live ting, I had to run for cover
They was firing

Hope I see T in the other life
I been a problem child
True, I seen pain through my mother's eyes
Grew up with a single parent
Gotta feel pain before the perseverance
For all this rain, only four umbrellas

Ask alwayne
Akh, I never took the fraud way
I was selling crack since school days
More than entertainment
Real niggas but we ain't celebrated
In the streets I got my education

True, I been a main steppa
Years, I sat down, they tried to make me better
Still, I'm undefeated like Mayweather
Even mummy knows that I'm a D boy
And a street nigga but I look like a sweet boy

I see the clouds getting darker and the days getting shorter
I feel the pain get stronger, I can't wait any longer

Rain on me, rain on me
Rain on, rain on, I feel the rain on me
Pain on me, I feel the pain on me
Pain on, pain on, feel the pain on me

Yo, uh, the poor getting poorer and the rich getting greedier
But would I be me if Allah made it easier?
Spent my whole life slanging buj
Can't tell you what the shoe's like on the other foot
They took me off the road akh, your boy was a baller
To Her Majesty's Prison, where you can't drink the water
I know Porridge oats akh, and Lakeland milk
Twenty-two hour bang up, I seen pain for real

This rap shit haram, but I'm good with the words
But God knows my heart, I could have been doing worse
Statistics said I should have been killed
What I seen will make you ill
I beat the odds, one day I'll make a film

Motivated off of losses, linked up with Colin
Went and turnt my pain into profit
My niggas deceased man, I wish he could see
I'm all the things they thought I never could be

Rain on me, pain on me, pain on me
Rain on me, pain on me, pain on me
Rain on me, pain on me, pain on me
Rain on me, pain on me
