

Frankenstein

Rina Sawayama

Put me together
Thread a needle
So I'm like other people
Without all of the evil

I'm trying to be normal
But trauma is immortal
And none of this is your fault

Oh my God, this is so unbearable
Make it stop, this is more than medical
All I want is
To feel beautiful inside and out

You're the one that can save me from myself
Destruction, triple nine, I need your help
All I want is
To feel beautiful

Put me together one more time
Love me forever, fix me right
I can be your Frankenstein, Frankenstein
Put me together, make me better
Love me forever, hold me tight
I can be your Frankenstein, Frankenstein

I don't wanna be a monster anymore
I don't wanna be a monster
I don't wanna be a monster anymore
I don't wanna be a monster
I don't wanna be a monster anymore
I don't wanna be a monster
I don't wanna be a monster anymore
I don't wanna be a monster

I was doing fine
'Til I hit rock bottom
Opened up my problems
Watch the poison blossom

Oh my God, this is so unbearable
Make it stop, this is more than medical
All I want is
To feel beautiful inside and out

You're the one that can save me from myself
Destruction, triple nine, I need your help
All I want is
To feel beautiful

Put me together one more time
Love me forever, fix me right
I can be your Frankenstein, Frankenstein
Put me together, make me better
Love me forever, hold me tight
I can be your Frankenstein, Frankenstein

I don't wanna be a monster anymore
I don't wanna be a monster
I don't wanna be a monster anymore
I don't wanna be a monster
I don't wanna be a monster anymore
I don't wanna be a monster
I don't wanna be a monster anymore
I don't wanna be a monster
