

# Tunnel Vision

Rina Sawayama

What?

You tell me what's wrong with you  
But I don't really care  
There's certainly something we've messed up  
But it's late to share  
I know you're sad and lonely  
But I got one hundred tabs  
Open in my mind but closed for business  
Just so you're aware

Tunnel vision madness  
Notification happiness  
Spinning plates  
Relationships going down the drain

Emotions are too much for me  
So I spread my love through likes  
I didn't even leave my house last week  
But I know what you did last night  
My fingers going numb as I search for a piece of mind  
But all the time just gets ahead of me  
And I sleep with the daylight

Tunnel vision madness  
Notification happiness  
Spinning plates  
Relationships going down the drain

Sing it Shamir  
(Going down the drain)  
Going down the drain, yeah  
(Going down the drain)  
I ain't lose myself  
(Going down the drain)  
Going down the drain  
I couldn't, couldn't find a way

Tunnel vision madness (tunnel vision)  
Notification happiness (happiness)  
Spinning plates  
Relationships going down the drain

I'm not ill, I'm just driven (just driven)  
But I guess there's just no end (just no end)  
To this mess that I created, that I created  
Until then, until I'm tired  
I'll be gladly riding on a merry-go  
Let me go round, and round, and round  
And round, and round, and round  
And round, and round, and round  
And round, and round, and round...
