

# Magic

Ringo Starr

We were takin' a summer stroll  
The ocean seemed so blue  
You were holdin' my hand, feet in the sand  
Like lovers do

This reminds me of so many years ago  
Times like these, I just got to let you know

It's one of those things, it's magic  
Like only lovers know  
It's one of those things, it's magic  
And I never wanna let you go  
It's one of those things, it's magic  
I hope it never ends  
I don't wanna sound romantic  
I wanna be more than just friends

I can still see the sun in your eyes  
After all these years  
You make all of the stars come out  
The darkness disappears

I'm reminded of just how much you care  
My life is never empty because you are always there

It's one of those things, it's magic  
Like only lovers know  
It's one of those things, it's magic  
And I never wanna let you go

It's one of those things, it's magic  
Like only lovers know  
It's one of those things, it's magic  
And I never wanna let you go  
It's one of those things, it's magic  
I hope it never ends  
I don't wanna sound romantic  
I wanna be more than just friends

It's one of those things, it's magic  
It's one of those things, it's magic  
(It's one of those things, it's magic, magic)  
Magic (Magic)  
It's one of those things, it's magic (Magic)
