

Rewind Forward

Ringo Starr

What's your name
Where are you going to
What's your game
Shadows are showing thru
How can I
Try to convince you
That love and peace and kindness can change your world

Everyday there's a new sun rising
Rising up into the night
Everyday there's a new horizon
Everywhere another mountain to climb
Everyday another lesson to learn
Everywhere another page to turn
Reach for the Stars
Rewind Forward
Rewind Forward

I read all the news
Heard all the chatter
Just looking for truth
Everything matters
We got to stay with it
The best that we can
Right now this is my truth
I'm telling you man

Everyday there's a new sun rising
Rising up into the night
Everyday there's a new horizon
Everywhere another mountain to climb
Everyday another lesson to learn
Everywhere another page to turn
Reach for the Stars
