

# Thankful

Ringo Starr

I had it all  
Then I started to fall  
I turned away from all the things that mattered

I was lost in the dust  
No one to trust  
My world came crashing down and shattered

Then you came along  
My shelter from the storm  
I put my life into your hands  
And you made me a better man

And now I'm thankful for the love you've shown  
Your love for me I've never known  
Thankful for the stars above  
Hoping for more peace and love  
Thankful when the sun is shining  
Day by day, I'm really trying  
Thankful for this moment here  
And thankful you are here

I needed a friend  
To help me along  
I needed somebody here to help me sing my song  
Now I have good days  
I'm changing my ways  
And it's a beautiful day  
Here in California

When you came along  
My shelter from the storm  
I put my life into your hands  
And you made me a better man

And now I'm thankful for the love you've shown  
Your love for me I've never known  
Thankful for the stars above  
Hoping for more peace and love

Thankful when the sun is shining  
Day by day, I'm really trying  
Thankful for this moment here  
And thankful you are here  
You are here
