

Stay

Ringside

Stay up
Hold on to me
Wait up
Don't let me sleep

'Cause I don't wanna go
Anywhere that you don't
Go with me

Something in your eyes
Makes all the butterflies
Inside me free

Stay
Love, I am yours
Hold me, have me
Forever, and more

'Cause nothing
No-one
Can tear us apart

I swear it's the truth
All you've got to do is
Stay

I feel the heat
Of your hands
I long for your breath
On my skin

There's nothing left
In this big blue world
That I'll ever need

Just one kiss
From my green eyed girl
Sets my sails free

Stay
Love, I am yours
Hold me, have me
Forever, and more

'Cause nothing
No-one
Can tear us apart

I swear it's the truth
All you've got to do is
Stay

Hello
Is that you?
Would you please come up to my room?
'Cause my head is hot
My window's jammed

And time stops
And dreams end

Oh, stay
Stay!
Stay!

Won't you stay
Oh stay
Love, I am yours
You can hold me
You can have me
Forever, and more

There's nothing
There's no-one
Can tear us apart

Oh, I swear it's the truth
All you've got to do is
Stay

Oh, stay
