

brush it off !!!

Riovaz

Have I said that it feels like no-ones there (No–)
Have I said what it feels like when I'm scared (Oh–)
And you are a star, my eyes made my heart (Made my heart)
And you are a star in my eyes you played your part (Uh, yeah, no–)

If it's easy brush it off
Why it seem that nothings changed
If it's easy brush it off
Why it seem that nothings changed

If it's easy brush it off
Make our bodies hit the floor
Why it seem that nothings changed
Think I've seen you here before
If it's easy brush it off
Make our bodies hit the floor
Why it seem that nothings changed
Think I've seen you here before
If it's easy brush it off
Make our bodies hit the floor
Why it seem that nothings changed
Think I've seen you here before

Still feel your arm around my shoulder
Can you tell me when it's over, cause I'm done (Cause I'm done)
And I know you're coming closer
Won't say a thing, I bite my tongue (My tongue)
Am I wrong, that I want you for my own
And my heart stops when you're gone
How long since you called my phone
How long–

If it's easy brush it off
Why it seem that nothings changed
If it's easy brush it off
Why it seem that nothings changed

If it's easy brush it off
Make our bodies hit the floor
Why it seem that nothings changed
Think I've seen you here before
If it's easy brush it off
Make our bodies hit the floor
Why it seem that nothings changed
Think I've seen you here before
If it's easy brush it off
Make our bodies hit the floor
Why it seem that nothings changed
Think I've seen you here before
