

## Follow Through

Ripe

I see the engine light  
Cars pass me, either side  
Halfway to Albany  
This is the way we keep the dream alive  
Pretty soon, the sun gonna rise  
I'm pretty sure we got a show tonight  
Pull yourself together, son  
And try a thousand times to get it right

To take the weight of the world  
And build a heavier smile  
This is the moment that we turn our pain into joy  
So keep your eyes on the road  
And keep the moment alive  
This is the moment that we

We try  
Our best  
To feel  
Okay  
I feel okay  
With you  
We try  
Our best  
To feel  
Okay  
I feel okay with you

Man, I get  
It sounds intense  
But I do, I'm sure I do believe in you  
Too proud to change  
Too spun to save  
If I only had the follow-through  
I only had the follow-through

Thank God that Sam still drives  
As we cross the last state line  
"Rosanna" loud as hell  
I DJ so we make it there alive  
So keep your eyes on the road  
And keep the moment alive  
This is the moment that we

We try  
Our best  
To feel  
Okay  
I feel okay  
With you  
We try  
Our best  
To feel  
Okay  
See, I feel okay with you

Man, I get

It sounds intense  
But I do, I'm sure I do believe in you  
Too proud to change  
Too spun to save  
If I only had the follow-through  
I only get the follow-through  
I only have the follow-through

So turn this pain to joy  
I don't claim the answers, but  
My faith can figure it out  
I came to share my pain  
Hopin' I'll find an answer  
At least you've got my back this time

We try  
Our best  
To feel  
Okay  
I feel okay  
With you  
We try  
Our best  
To feel  
Okay  
I feel okay  
With you  
We try  
Our best  
To feel  
Okay  
See, I feel okay with you  
(Oh)

Man, I get  
It sounds intense (Oh no, no)  
But I do, I'm sure I do believe in you  
Too proud to change  
Too spun to save  
If I only had the follow-through

Ooh, man, I get  
Ooh, it sounds intense  
Ooh, no, I'm sure I do, I'm sure I believe in you  
Too proud to change  
Too spun to save  
If I only had the follow-through  
I only had the follow-through
