

Makin' Ice

Ripe

And the rhythm kicks in like thunder
Little one, won't you dance with me?
Let the crowd look on in wonder
Pretty one, won't you set your body free?
Let the bass drop like a monster
And there's no way that I'm ending here alone
Girl, I would love to be your everything
But I'll settle for being the one to take you home

Oh baby
I am not a gambler, but I would play the odds for you
If you would allow me to just come a little closer
And let me feel your heartbeat
Yeah, isn't life much better when you're wild?

See, I just want to make you move
Baby, dance with me
Darling, let your body groove
The beat will set you free

Somebody was screaming something
But I could not hear them over all these lights and sounds
And I am somewhere in the atmosphere
But have no fear, tonight, I'm not coming down
Just let the rhythm move your body
Get a little bit intoxicated by the sound, mmm
Because I promised you a damn good time
And that's not the thing you sit down to figure out

Oh baby
I am not a gambler, but I would play the odds for you
If you would allow me to just come a little closer
And let me feel your heartbeat
Yeah, isn't life much better when you're wild?

See, I just want to make you move
Baby, dance with me
Darling, let your body groove
The beat will set you free
I just want to make you move
Baby, dance with me
Darling, let your body groove
The beat will set you free
Huh

I just want to make you move
Baby, dance with me
Darling, let your body groove
The beat will set you free
I just want to make you move
Baby, dance with me
Darling, let your body groove
The beat will set you free
