

## Settling

Ripe

You get mad when  
You get told to watch your tone  
Yeah, you get angry  
But hold your breath while you count down  
And not be angry  
Easier to bite your tongue (oh oh oh oh oh)

Every time that you behave  
Every time you play it safe  
You can feel it getting harder  
Still, you're...

Waiting for things to get better  
To get better, to get better  
But you're not sure if it's now or it's never, or it's never  
If it's never been done before  
It might be kinda frightening  
But waiting for things to get better, to get better  
Feels a lot like settling  
Feels a lot like settling  
Feels a lot like settling

You're still tryin'  
But maybe if you let it go  
And just stop tryin'  
Finally say what's on your mind  
To hell with timing  
Is it easier to bite your tongue (oh oh oh oh oh)

Every time that you behave  
Every time you play it safe  
You can feel it getting harder  
Still, you're...

Waiting for things to get better  
To get better, to get better  
But you're not sure if it's now or it's never, or it's never  
If it's never been done before  
It might be kinda frightening  
But waiting for things to get better, to get better  
Feels a lot like settling  
Feels a lot like settling  
Feels a lot like settling  
Ay, ay, ay, ay  
A lot like settling  
Hey, hey, hey, hey

Waiting for things to get better  
To get better, to get better  
But you're not sure if it's now or it's never, or it's never  
If it's never been done before  
It might be kinda frightening  
But waiting for things to get better, to get better  
Feels a lot like settling  
Feels a lot like settling  
Feels a lot like settling  
Feels a lot like settling

Feels a lot like settling
