## Rising Insane

You got to smile  
You got to cry  
You got to follow

You got to push  
You got to move  
You do what they told

You live a life  
In cage  
In rage  
In hell  
With yourself  
You can't deny  
It eats  
You up  
From the inside

Fake it, play it, break it  
This is all yours, go get your live  
And take it  
We got to stop to  
Fake it, play it, break it  
This is all yours, go get your live  
And take it

Shine your light on me  
Peak from the darkside  
Leaving your disguise behind  
Shine your light today  
Paying your own mind  
Take on the reigns, the reigns and  
Reign

Know deep inside  
It's do or die  
There's no tomorrow  
This live's a lie  
You can't deny  
Your time is borrowed

Turn off the live  
In cage  
In rage  
In hell  
With yourself  
There's no home in this place  
People acting okay  
And pay the price to be  
Someone they'd be hating

Fake it, play it, break it  
This is all yours, go get your live  
And take it  
We got to stop to  
Fake it, play it, break it  
This is all yours, go get your live

And take it

Shine your light on me  
Peak from the darkside  
Leaving your disguise behind  
Shine your light today  
Paying your own mind  
Take on the reins, the reins and  
Reign  
Take on the reins, the reins and  
Reign  
Take on the reins, the reins and...

The earth is a playground  
For scorn and contempt  
Millions of posts  
Multiplying the hate  
Who do you think  
Lives in freedom today today today today...

It's not about where you come from  
It is where you go  
And how you walk this road  
When you are all alone  
There ain't no misconceptions  
Either you're human or not  
Everything else is ridiculous  
Give the world what you've got

Shine your light on me  
Peak from the darkside  
Leaving your disguise behind  
Shine your light today  
Paying your own mind  
Take on the reins, the reins and  
Reign  
Take on the reins, the reins and  
Reign
