

This Can't Be Us

Rising Insane

Can you see the dust rise?
As the responsables sneak away
Searching for the mistakes
As they've made the same again
They make the same again

Do you believe what they say when they proclaim their intentions?
Can you feel the earth moving, or do we stuck hear?

This can't be us, this can't be real
We can't survive this way
This can't be us, this can't be real
I have tried to go back where we started but it was too far away

Can you see the forests?
Well me, I can't
Cause they were cut away and burned for war
And again, they search for the mistakes
After they made the same again

This can't be us, this can't be real
I have tried to go back where we started but it was too far away
This can't be us, this can't be real
We can't survive this way

They make the same mistakes again
They make the same mistakes again

This can't be us, this can't be real
I have tried to go back where we started but it was too far away
This can't be us, this can't be real
We can't survive this way
We can't survive
We can't survive
This way
