

## (I Always Called Them) Mountains

Rita Coolidge

Well my love for you can be no stronger  
Than the tears we've cried we shed invain  
Now the days we've been apart can't last much longer  
I guess we both are one and the same

My heart is like a diamond  
That has no value without your name  
And it shines so bright  
Since you've become my guiding light  
You know darling what I'm trying to say

And I'll always call them mountains  
But I knew they were only hills  
And the things that we've have been going through  
I guess we always will

And I'll always call them mountains  
But I knew they were only hills  
And the things that we've have been going through  
I guess we always will

Just the words to say I love you  
Are so much easier easier just to feel  
Cause when there's nowhere to go  
You're my river my boat to row  
On top of everything it's a love that's real

And I'll always call them mountains  
But I knew they were only hills  
And the things that we've been going through  
I guess we always will
