

Love Me Again

Rita Coolidge

I wanna say I love you
I wanna say I care
Even though you
May not feel the same
I'm not afraid to wait
'Cause I know you'll change

Love ends
So love begins, my friend
Love me again
Love me again

If love were a road
I'd be walking
If you were still lucky
I'd be home

Obey your heart
And let me walk in
Open up your eyes
And love me again

Love ends
So love begins, my friend
Love me again
Love me again

Obey your heart
And let me walk in
Open up your eyes
And love me again

Love ends
So love begins, my friend
Love me again
Love me again

Love me again
Love me again
