

Over You

Rita Coolidge

I'm standing up here looking
At the water rolling by
All the years, they pass before me
Like all the tears that I have cried

And I swear I'm gonna
Jump in and go down and
Come up over you
Come up over you

The wind across the water
Keeps whispering your name
Like all the people that are talking
Say it'll never be the same

And they say
I'll have to jump in and go down
And come up over you
Yes I'll come up over you
Come up over you

It's funny how one person
Can have such power over you
It ain't so funny how one person
Can make you do the
Crazy things you do
And I guess I'll have to jump in
And go down and
Come up over you
Yes, I'll come up over you
Come up over you
Come up over you
Yes, I'll come up over you
