

Rainbow

Rita Coolidge

We're already in love
It's heaven and it's hell
And maybe that's enough
For everybody else
But you and I want in
As far as we can go
It's perfect at the skin
But we want to touch the soul

To get any closer than this
We'll make prayers of promises
Walk in the same shoes and yes
Travel the same road
Speak of the same grace out loud
Sharing the love we're sharing now
Go in as the rain in the cloud
Come out as a rainbow

You say it's not enough
To stop here at the gate
To know we looked inside
Before we walked away
And I don't want to live
In paradises lost
With chances come and gone
Or bridges never crossed

To get any closer than this
We'll make prayers of promises
Walk in the same shoes and yes
Travel the same road
Speak of the same grace out loud
Sharing the love we're sharing now
Go in as the rain in the cloud
Come out as a rainbow

And why would someone second guess
The love that got us through this mess
Is it our place to blame or bless
Each other now

To get any closer than this
We'll make prayers of promises
Walk in the same shoes and yes
Travel the same road
Speak of the same grace out loud
Sharing the love we're sharing now
Go in as the rain in the cloud
Come out as a rainbow

Come out as a rainbow
Come out as a rainbow
Come out as a rainbow
